CHARLI DEEPAK ARULANANDAM / Ph.D.

Doctoral:
Institute: Kaohsiung Medical University, Kaohsiung Research field: Computational toxicology
Advisor: Prof. Hans-Uwe Dahms Co-advisor: Prof. Li-Fang Wang Master: Institute:
Bharathidasan University, Department of Marine Biotechnology, India Research field:
Candidiasis drug discovery Thesis supervisor / Co-advisor: Prof. M. Sundararaman

Master:
Institute: Bharathidasan University, Department of Marine Biotechnology, India Research field:
Candidiasis drug discovery Thesis supervisor / Co-advisor: Prof. M. Sundararaman

Publication and Preprint:
In silico approach on drug repurposing - Antimalarial drugs against HIV-1 protease. Charli
Deepak Arulanandam. 2021, 13. DOI: https://doi.org/10.1101/2021.01.12.426148

Raspberry pi: Assessments of emerging organic chemicals by the predictive in silico methods.
Charli Deepak Arulanandam, R Prathiviraj, Govindarajan Rasiravathanahalli Kaveriyappan.
2021, 17. DOI: https://doi.org/10.1101/2021.01.15.426465

Repurposing of an Antifungal Drug against Gastrointestinal Stromal Tumors. Charli Deepak
Arulanandam, R Prathiviraj, Govindarajan Rasiravathanahalli Kaveriyappan. 2021, 17. DOI:
https://doi.org/10.1101/2021.01.15.426618

Marine Bacterial Compounds Evaluated by *in silico* Studies as Antipsychotic Drugs against
Schizophrenia. Dhinesh Kumar Thiyagarajamoorthy, Charli Deepak Arulanandam, Hans-Uwe
Dahms, Santhosh Gokul Murugaiah, Muthukumar Krishnan and and Arthur James Rathinam,
Marine Biotechnology, 2018, 20(5):639-653, IF-2.798. PMID: 30019186, DOI:
https://doi.org/10.1007/s10126-018-9835-3

Optimization of submerged fermentation process for improved production of β-carotene by
Exiguobacterium acetylicum S01. Jinendiran S, Dileep Kumar BS, Hans-Uwe Dahms, Charli
Deepak Arulanandam, Sivakumar N. Heliyon. 2019,5(5):e01730. IF-1.650, DOI: PMID:
31193511 PMCID: PMC6535579 DOI: 10.1016/j.heliyon.2019.e01730

Human Skin Sensitizing Properties, Mutagenicity and Blood-Brain Barrier Penetration of
Organotin Compounds Using in silico Approaches, Charli Deepak Arulanandam, Inamul Hasan
Madar; Vinoth Kumar Ponnusamy; Arthur James Rathinam; Hans-Uwe Dahms. BioMed
Research Journal, 2018, 2 (1):18-27 IF-NA. http://doi.org/10.5281/zenodo.2631887

In-silico SMILES-based toxicity prediction of fluorescent dye (Rh-B), Charli Deepak
Arulanandam, Hans-Uwe Dahms, Journal of Clinical Toxicology, 2017, 7:3 (Suppl). Corpus ID:
116350583, DOI:10.4172/2161-0495-C1-025
